Objective

MCA student with a strong interest in DevOps, Linux Administration, and Cloud technologies. Hands-on experience with Ansible automation, AWS, Python scripting, Git, and CI/CD through personal projects. Seeking an internship opportunity to strengthen infrastructure automation, system administration, and cloud engineering skills in a professional environment.

Skills

Linux Administration | Networking Fundamentals | Ansible | Python & Bash Scripting | AWS (EC2, S3, IAM) | Git & GitHub | GitHub Actions (CI/CD) | Docker | Terraform

Projects

Infrastructure Automation with Ansible:

- Automated AWS EC2 provisioning and lifecycle management using Ansible
- Implemented Ansible Vault, inventories, AWS collections, and SSH key-based authentication
- Built playbooks for infrastructure cleanup, package management, and error handling

Cloud Portfolio Website:

- Built and deployed a personal portfolio website using AWS (S3, CloudFront)
- Used Terraform for infrastructure provisioning
- Implemented CI/CD pipeline using GitHub Actions to automate deployment

Containerized Web Application:

- Developed a basic two-tier application using Docker and Docker Compose
- Managed multiple containers and their communication
- Gained hands-on experience with containerization and deployment

Education

Master of Computer Applications (Cloud Computing)
Chandigarh University (2025 – 2027)

Bachelors of Computer Application
Himachal Pradesh University, Shimla (2022 – 2025)

Certifications

Introduction to Linux- The Linux Foundation | AWS Cloud Quest (Cloud Practitioner)- AWS

AWS Educate Web Builder- AWS | Cloud DevOps– Intel

Additional Information

Strong willingness to learn and adapt | Basic understanding of DevOps workflows | Open to internship and training opportunities
